・自己PR Self-promotion	After living in Singapore for eight years, I returned to Japan and immersed myself in the Kyoto world of Japanese green tea. With my qualifications as a chanoyu (tea ceremony) lecturer and Japanese tea instructor, I work to impart the correct knowledge of tea and promote the charms of tea to guests from all over the world. In addition, I work for the Uji pottery industry, as I believe it is essential for the infusion of green tea.
・お茶の京都エリア内での得意分野・エリア （案内可能地域含む） Specialties and areas within the Kyoto Tea area (including areas where you can guide)	The nature-rich Yamashiro region is not only a famous World Heritage Site, but is also full of undiscovered natural wonders. Tours around the Ocha no Kyoto area with water and green tea as themes are my speciality, and as well as tea plantation tours and tea experiences such as Matcha, Sencha and Gyokuro. I can also tell you in depth about the charms of tea along the Kizu River. In Joyo City, you will be taken on a tour of a plum sake brewery, in Kyotanabe City to experience Zen meditation at Ikkyuji Temple and in Yawata City to the Shokado Museum of Art.
